FACTS ABOUT AUTOMATIC PAYMENTS

- Automatic Payments have been around for more than 30 years and use the same network as Automatic Deposits. More than 2 billion transactions a year are made via Automatic Payment.
- Each Automatic Payment is deducted from your account on the due date of each payment cycle so it is easy to track.
- Automatic Payments are confidential transactions. Just one or two people see them. In contrast, checks pass through three to nine hands as they are processed and have all the information available for a criminal to steal your identity.
- Automatic Payments help you maintain a good credit rating because bills are paid on time, every time.
- Record keeping is easy. Each bill paid automatically from your checking account or credit card is listed on your monthly statement.
- Consumers who use Automatic Payment are protected by the Electronic Funds Transfer Act of 1978, known as Federal Regulation E. www.hankersonlinc.com/re~05/205.html
- Automatic Payment saves you money. It costs consumers close to \$100 a year in time and Automatic costs, such as postage, to pay bills by check instead of using Automatic Payment.
- Automatic Payments are great for travelers - since bills are paid automatically, you do not have to worry about them when you are out of town.
